Profiling

● Your Profiling

Personal profiling is the first step in career planning. The purpose of profiling is to understand your current career planning stage. It will help decide your career objective and roadmap. The ultimate aim of the planning is to take you from the current stage of career planning to the optimized stage of career planning. Personal profiling includes information about your current stage, the risk involved and action plan for your career development.

Current Stage of Planning

Diffused

Diffused: You are at the diffused stage in career planning. We understand that you have a fair idea of your suitable career. At this stage, you have a better understanding of career options. However, you are looking for more information to understand the complete career path for yourself and an execution plan to achieve it. Lack of complete information and execution plan can adversely impact your career. Most career decisions are based on limited information

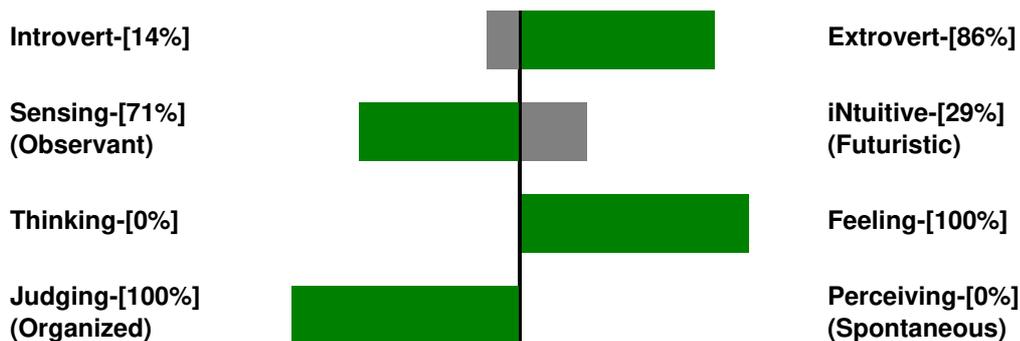

Risk Involved: Career misalignment, career path misjudgment, wrong career path projections, unnecessary stress

Action Plan : Explore career path > Align your abilities and interests with the best possible career path > Realistic Execution Plan > Timely Review of Action Plan

Result of the Career Personality

Personality Assessment will help you understand yourself as a person. It will help you expand your career options in alignment with your personality. Self-understanding and awareness can lead you to more appropriate and rewarding career choices. The Personality Type Model identifies four dimensions of personality. Each dimension will give you a clear description of your personality. The combination of your most dominant preferences is used to create your individual personality type. Four dimensions of your personality are mentioned in this chart. The graph below provides information about the personality type you belong to, based on the scoring of your responses. Each of the four preferences are based on your answers and are indicated by a bar chart.
